> Live Stock. (Prescott Courier.)

The Courier has, of late, had talks with stockmen from all parts of this and adjoining counties and has learned from them that dry as was the past summer, stock of all kinds are in good fix to endure the hardships of winter. Mr. Collins and other buyers of bee cattle, who came here recently from California have made large purchases of suitable animals. Mr. Collins is quoted as having said that the fattest range animals he purchased were those picked up along Verde, Oak and other creeks, from 40 to fifty miles east of Prescott. They were not only large but fat. He is coming back after more. They were driven to the A. & P. railroad and taken to Los Angeles, Cat., by rail. They netted owners from \$22 to \$30 a head.

More cattle are now being gathered shipment to Kansas City. Besides the Verde, Mogollon and Topto Basin sections of our county, there are, to draw from, Walnut Grove, Skull, Peoples and other valleys west of Prescott, Date creek, Santa Maria, Williamson, the Chines. Walnut creek, Camp Wood, Agua Fria, Black Hills and the great region south, so that our stock men are not "cribbed, cabined and con fined," but have an immense grass area

A Safeguard.

The fatal rapidity with which slight Colds and Coughs frequently develop into the gravest maladies of the throat and lungs, is a consideration which should mpel every prudent person to keep at AYER'S CHERRY PECTORAL Nothing else gives such immediate relief and works so sure a cure in all affections of this class. That eminent physician, Prof. F. Sweetzer, of the Maine Medical School, Brunswick, Me., says:— "Medical science has produced no other ano-dyne expectorant so good as AYER'S CHERRY PECTORAL. It is invaluable for diseases of the throat and lungs."

The same opinion is expressed by the well-known Dr. L. J. Addison, of Chicago, Ill., who says :-"I have never found, in thirty-five years of "I have never found, in thirty-five years of continuous study and practice of medicine, any preparation of an great value as Aven's Cunnar Prevental, for treatment of diseases of the throat and fungs. It not only breaks up colds and cures severe coughs, but is more effective than anything else in relieving even the most serious bronchial and pulmonary affections."

AYER'S **Cherry Pectoral** 

Is not a new claimant for popular confidence, but a medicine which is to-day saving the lives of the third generation who have come into being since it was first offered to the public. There is not a household in which this There is not a nonsenost in which this invaluable remedy has once been introduced where its use has ever been abandoned, and there is not a person who has ever given it a proper trial for any throat or lung disease susceptible of cure, who has not been made well be it.

AYER'S CHERRY PECTORAL has, ka numberless instances, cured obstinate cases of chronic Bronehitis, Laryngitis, and even acute Pneumonia, and has saved many patients in the earlier stages of Pulmonary Consumption. It is a medicine that only requires to be taken in small deses, is pleasant to the taste, and is needed in every house where there are AYER'S CHERRY PECTORAL for treatment of Croup and Whooping Cough. These are all plain facts, which can be verified by anybody, and should be re-membered by everybody.
